

CREATE YOUR OWN SPARTAN HELMET

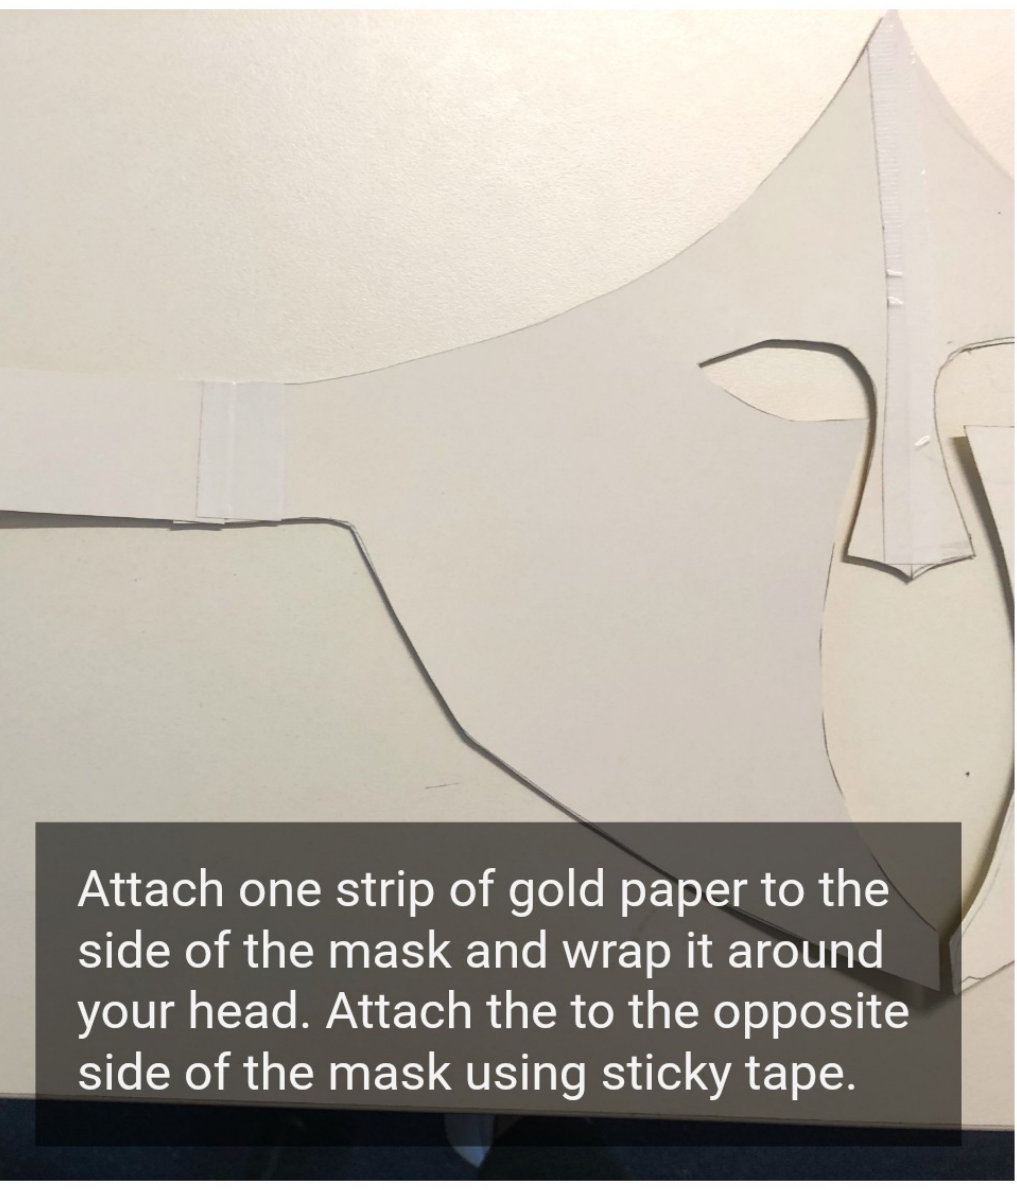

Cut out the two sides of the gold mask. With the gold facing outward sticky tape the two halves together along the noseguard.

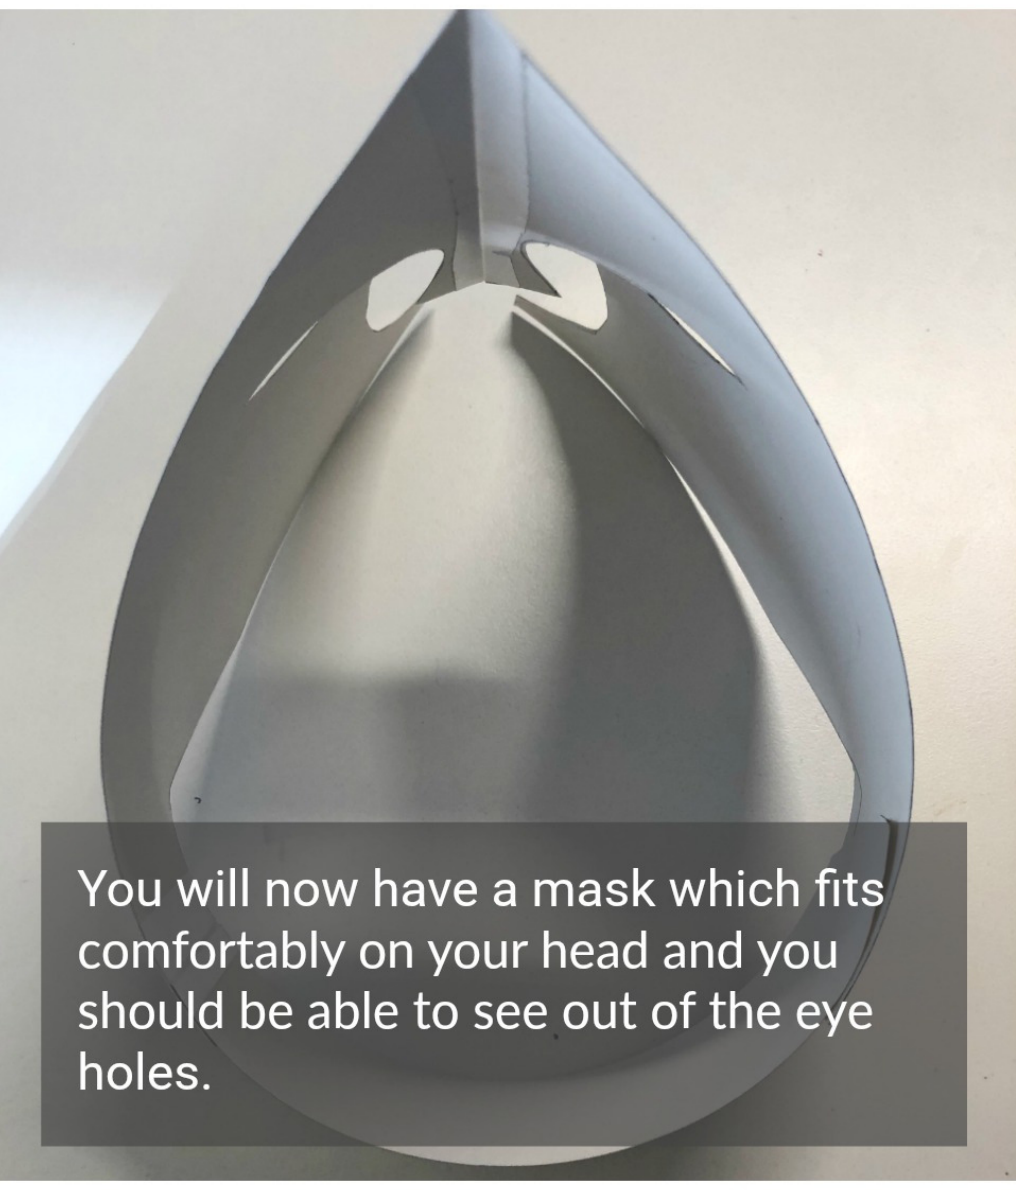

Cut out the two sides of the gold mask. With the gold facing outward sticky tape the two halves together along the noseguard.

Cut two more pieces of gold construction paper into strips longways. These will form the bowl of the helmet.

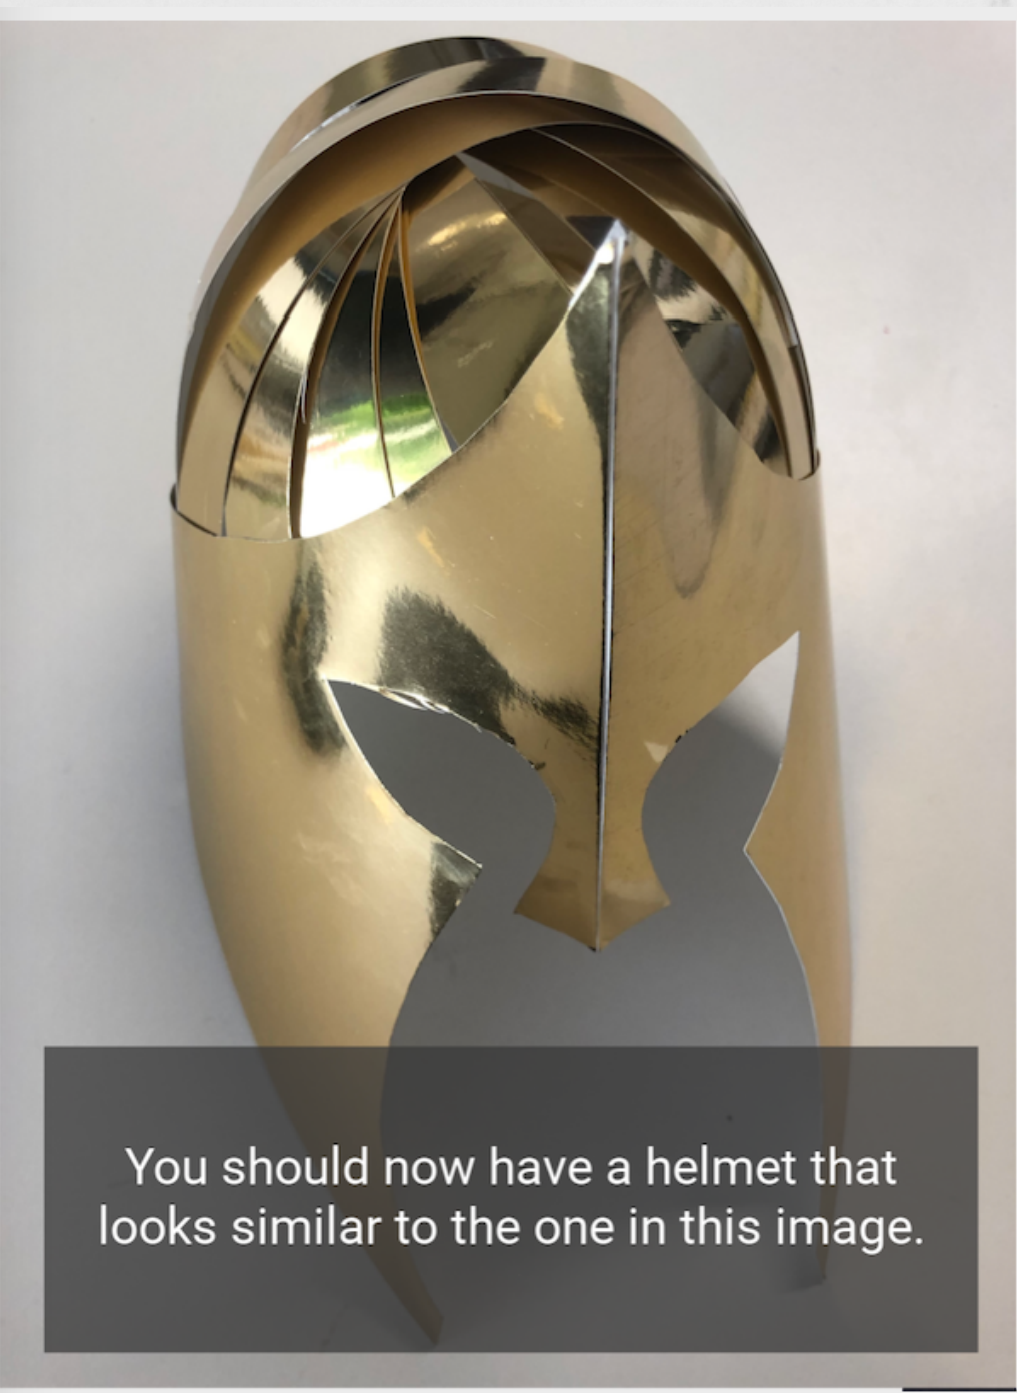

Attach one strip of gold paper to the side of the mask and wrap it around your head. Attach the to the opposite side of the mask using sticky tape.

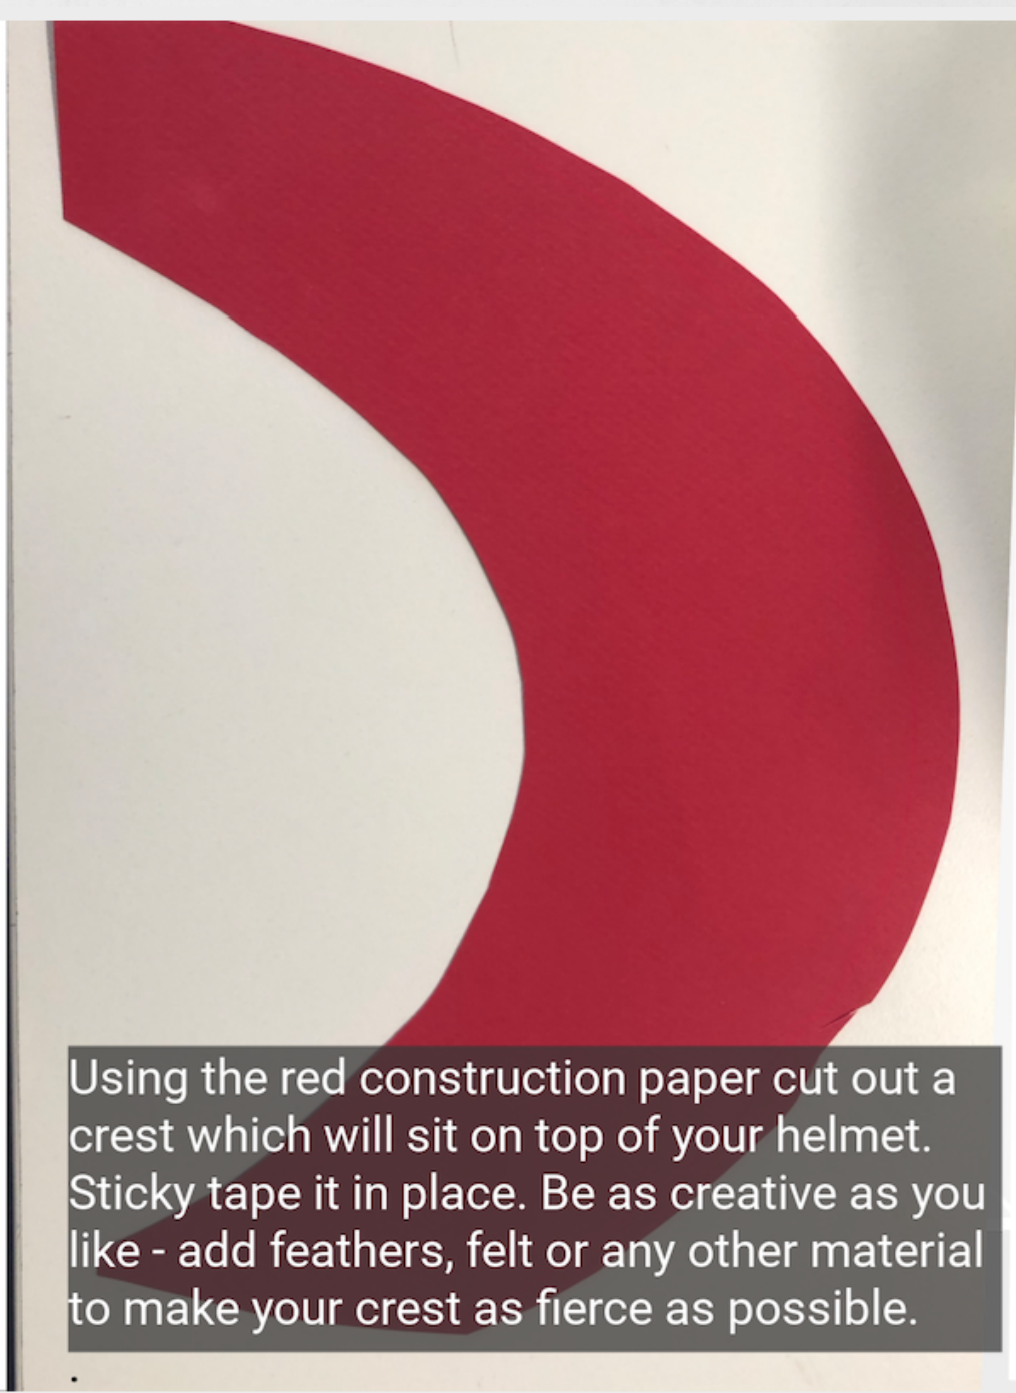

You will now have a mask which fits comfortably on your head and you should be able to see out of the eye holes.

Using the remaining strips of gold paper tape two pieces from side to side in a dome shape. Fan out the rest of the strips taping them in place to the inside of the mask as you go.

You should now have a helmet that looks similar to the one in this image.

Using the red construction paper cut out a crest which will sit on top of your helmet. Sticky tape it in place. Be as creative as you like - add feathers, felt or any other material to make your crest as fierce as possible.

Congratulations! You now have your very own Spartan helmet!!
