

# HOPLITE TO CENTURION

Make your own ancient helmet by following the instructions on the next page. Follow in the footsteps of past warriors and decorate it as colourfully as you like - all the better to frighten your enemies!

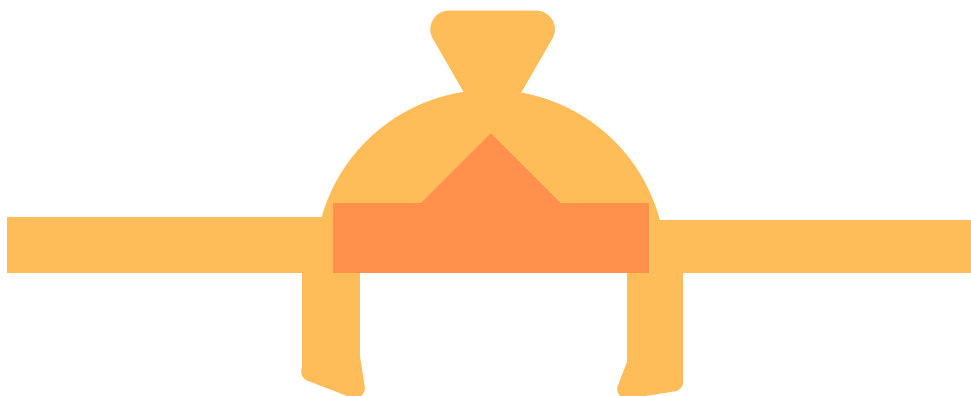

## What you'll need:

- Pencils, crayons or markers
- Glue stick
- Scissors
- Feathers (optional)

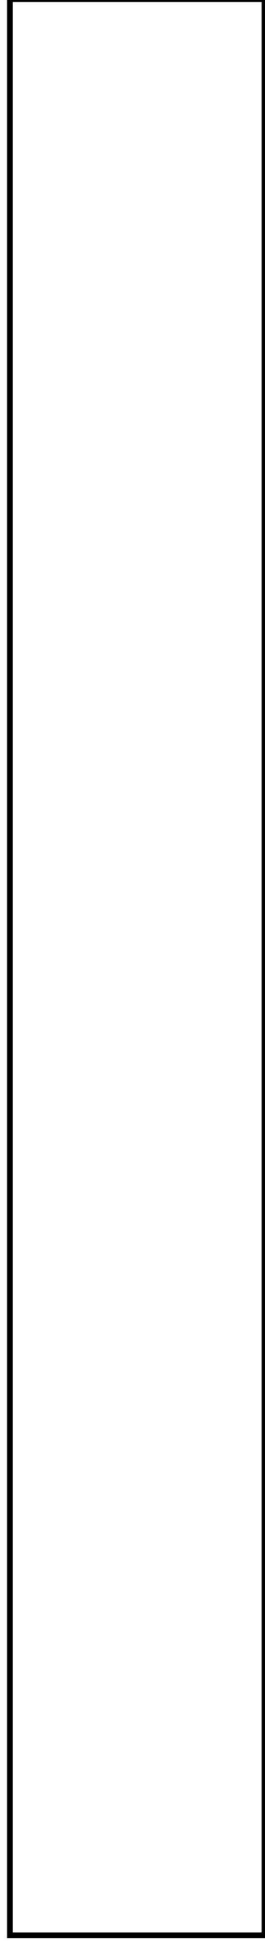

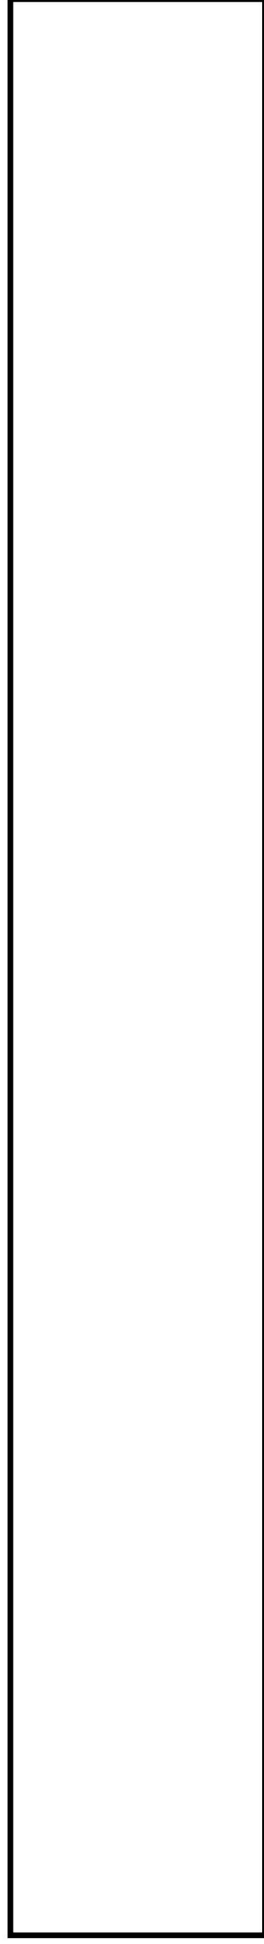

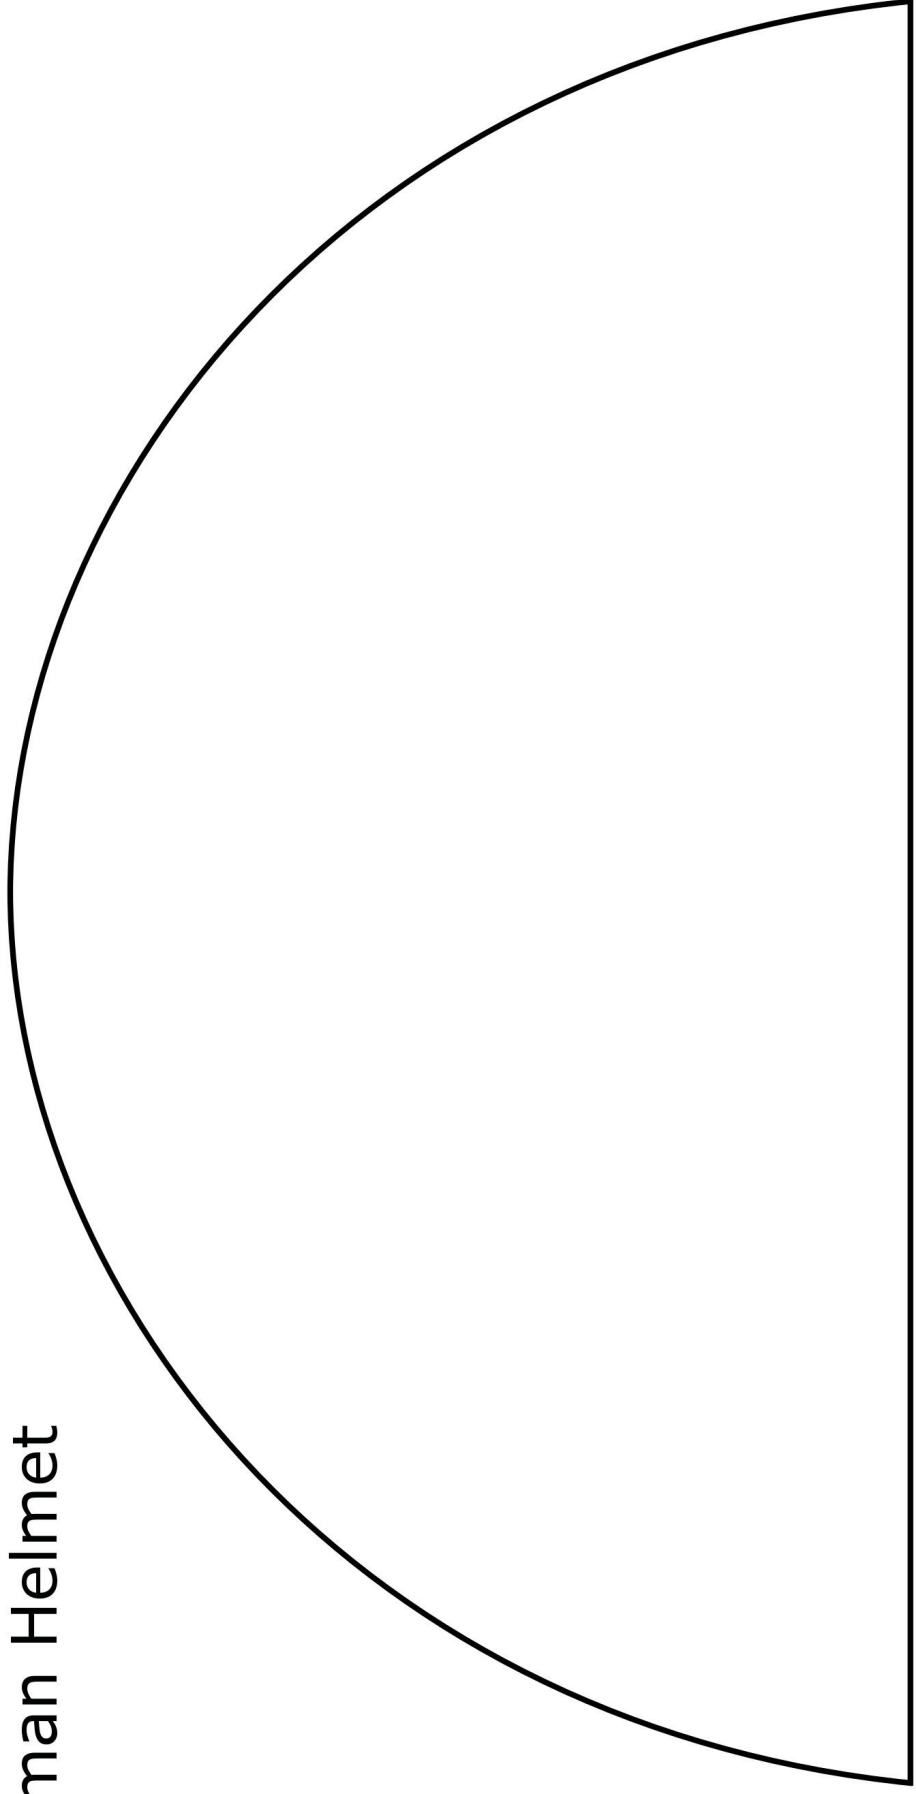

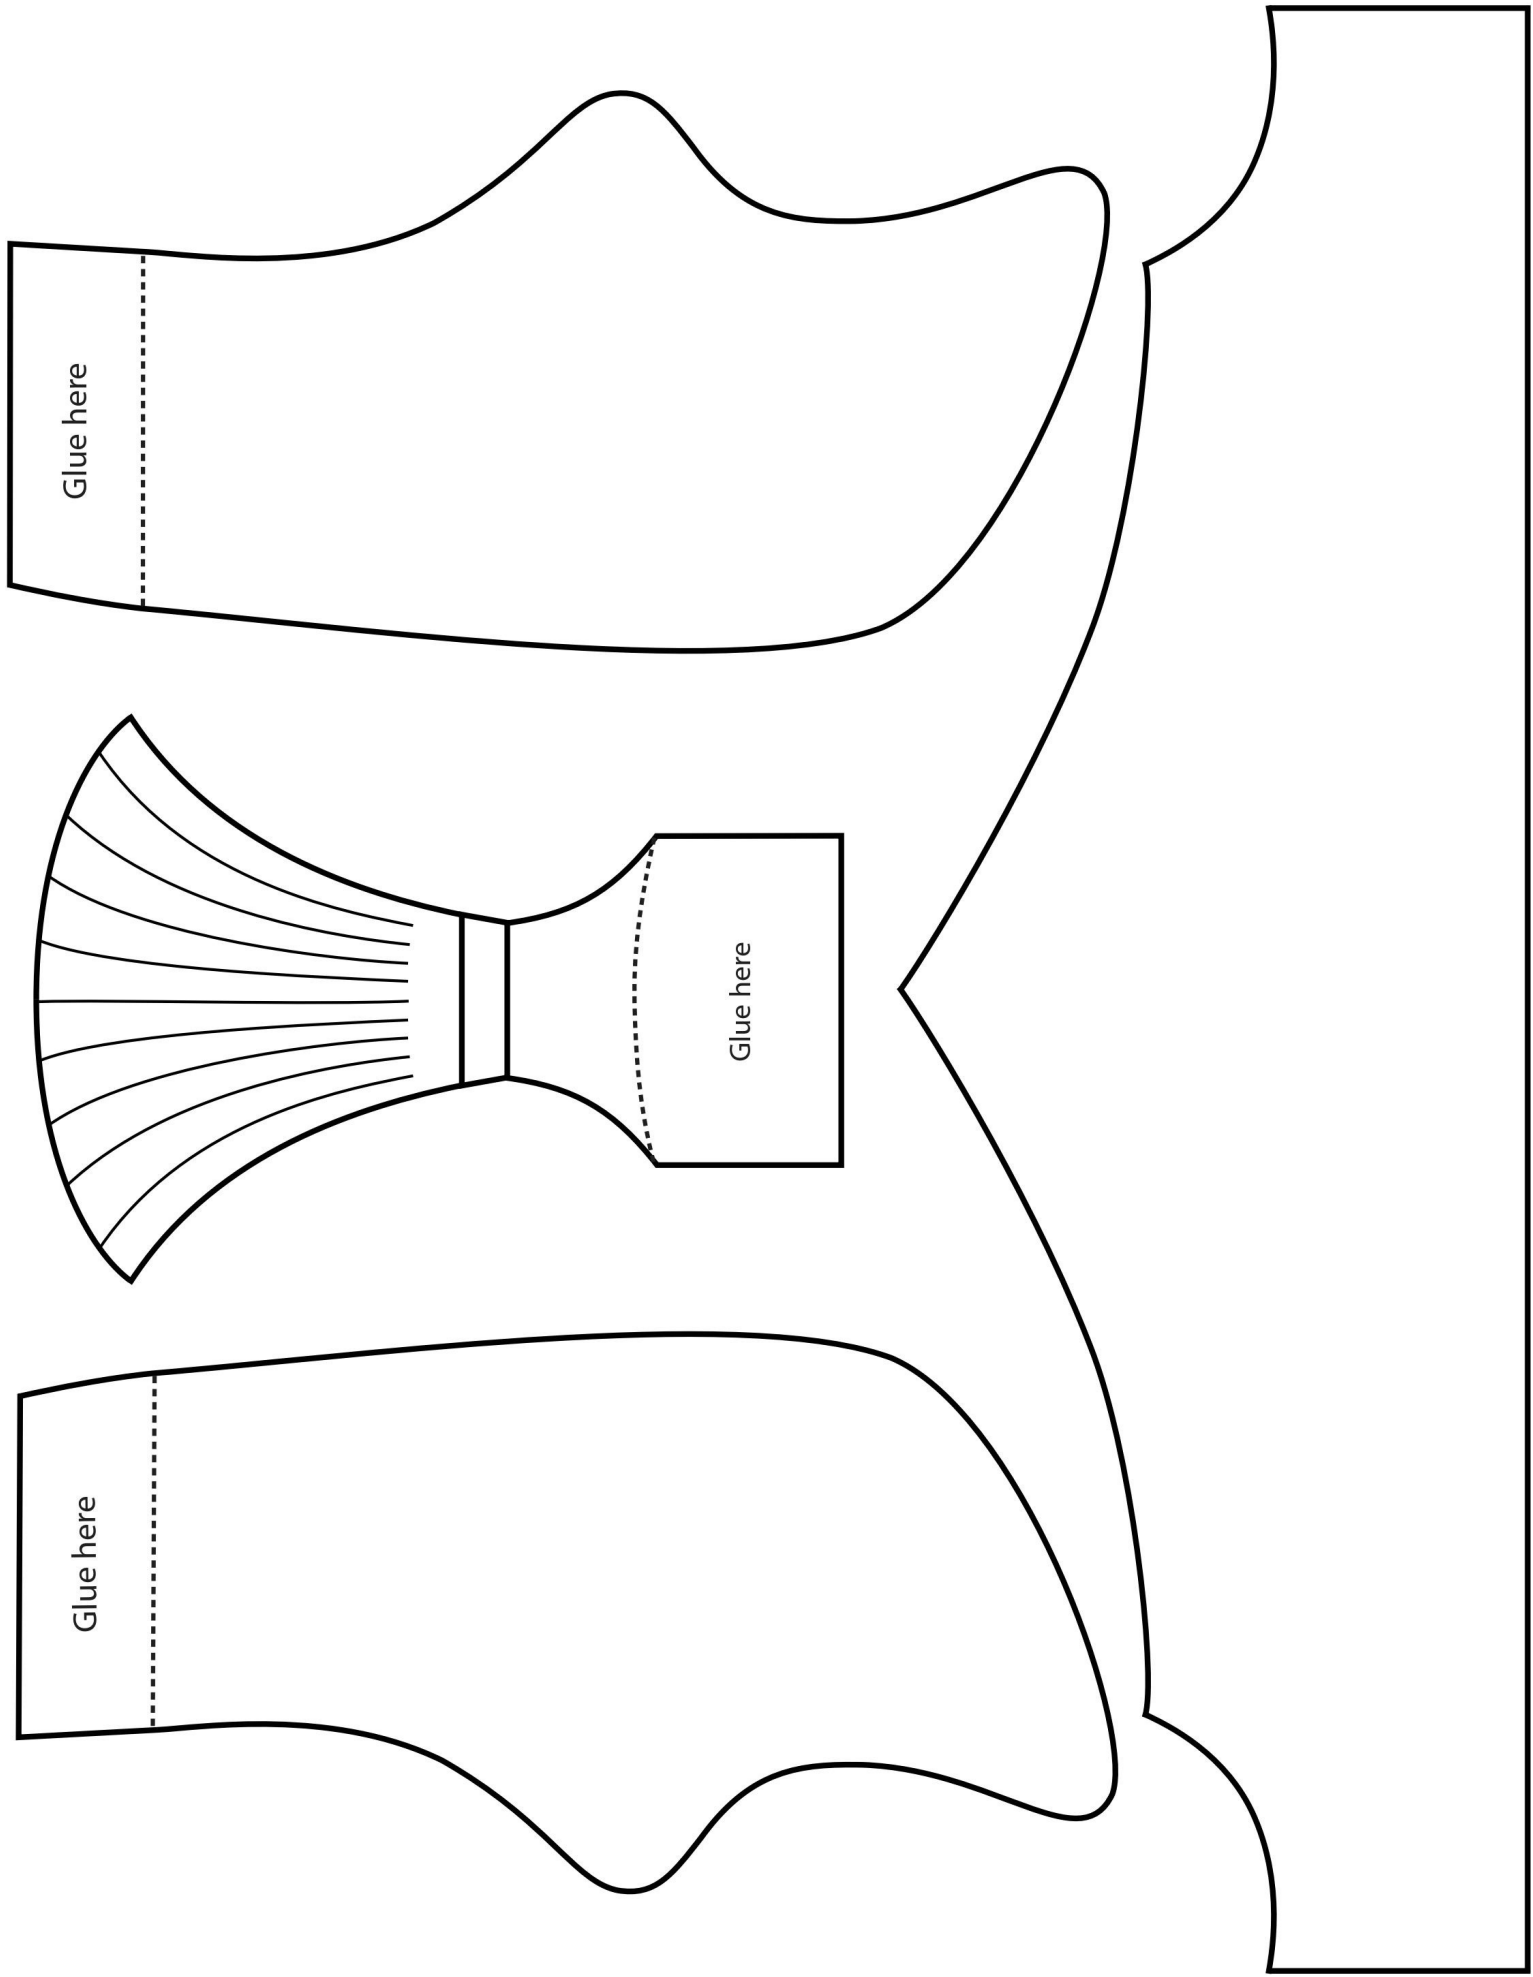

# HOW TO MAKE YOUR HELMET

- Print the next 2 pages on A4 paper and colour in each piece
- Cut each piece carefully (with the help of an adult if you need)
- Glue each of the two long pieces to the large semi-circle, then wrap it around your head to measure. Glue the long pieces together so that the helmet fits comfortably
- Glue the long pointy piece to the lower front half of the semi-circle
- Glue the crest on the top back side of the semi-circle - feel free to glue a feather on it for extra fun!
- Figure out where the 2 cheek guards fit for you, then glue them on the under side of the helmet.
- Well done! You should now have your very own ancient helmet!
