

MAKE YOUR OWN DRAGON HAND PUPPET

Begin by folding a piece of A4 paper lengthwise in three even sections. Then cut one off one of the thirds and set aside for later. Choose any colour you like for your dragon.

Re-fold the paper lengthwise, then fold paper in half across the middle

Fold one side of the paper in half again

Flip and repeat on the other side

Use the leftover strip of paper and cut out a wing shape. Attach wings to the underside dragon's head.

Use any leftover paper and create a shape to which you can attach eyes. Doll, googly or drawn eyes are fine.

Make nostrils, teeth, tongue, fire, eyes, and any other embellishments you like for your dragon puppet.

Attach the wings, eyes, fire, nostrils, spikes, or anything else you like with tape or glue

CONGRATULATIONS! You have your very own paper dragon hand puppet. Now you can defend your treasures from pillagers and thieves.
